Protekt® 100

Pressure Redistribution Foam Mattress

HCPCS
E0184

FEATURES AND BENEFITS:

- The entire mattress core is comprised of a high resilient 1.5 density foam formulation. The ultra-soft foam construction measures at a 28 ILD (indentation load deflection) which allows for deep immersion and provides excellent pressure redistribution.
- Nylon cover reduces perspiration and provides a low shear friction surface that is anti-microbial and fluid resistant.
- 360 degree zipper for easy removal, cleaning or replacement.
- Anti-Contamination Flap covers the zipper reducing the possibility of fluids damaging the foam core.
- Fire sleeve meets Federal Fire Code 16 CFR part 1633.
- Weight Capacity: 350 lbs.
- Warranty: Core; 4 Year Non-Prorated. Cover; 2 Year.
- Optional raised rails available on all sizes.

Protekt® 300

Pressure Redistribution Foam Mattress

HCPCS
E0184

FEATURES AND BENEFITS:

- Multi-tiered pressure redistribution mattress with top layer of high density and high resilient die-cut foam in the torso and head sections offers unparalleled pressure redistribution.
- The sloped heel section combined with ultra soft foam reduces pressure and increases blood circulation by redistributing the load from heel to the less vulnerable lower leg.
- PTSS Rail System provides additional support for easy patient transfer and edge of bed sitting.
- Stretch nylon top cover reduces perspiration and provides a low shear friction surface that is anti-microbial and fluid resistant.
- 360 degree zipper for easy removal, cleaning or replacement.
- Anti-Contamination Flap covers the zipper reducing the possibility of fluid migration.
- Bottom Cover: Triple laminate vinyl; fluid resistant; anti-microbial/anti-bacterial; fire retardant.
- Fire sleeve meets Federal Fire Code 16 CFR part 1633.
- Weight Capacity: 350 lbs.
- Warranty: Core; 7 Year Non-Prorated. Cover; 2 Year.
- Optional raised rails available on all sizes.

Protekt® 500

Gel Infused Foam Pressure Redistribution Mattress

Protekt® 600

Bariatric Pressure Redistribution Foam Mattress

FEATURES AND BENEFITS:

The Protekt® 500 with (VGPT)™ Visco Gel Polymer Technology is a revolutionary support surface that provides unprecedented pressure redistribution, rapid heat dissipation, and vast increases in breathability compared to traditional foam.

- Reduces occurrence of pressure sores by channeling heat away from the body significantly faster than traditional foam, virtually eliminating perspiration.
- Superior pressure redistribution is delivered by providing more support and less cradling at higher levels of compression, redistributing pressure over a large surface area eliminating static fatigue.
- Protects vulnerable heel area with a 30 degree slope redistributing pressure to the entire leg and away from the heel.
- PTSS Rail System provides additional support for easy patient transfer and edge of bed sitting.
- Stretch nylon top cover reduces perspiration and provides a low shear friction surface that is anti-microbial and fluid resistant.
- Available in 54" & 60" widths.
- Fire sleeve meets Federal Fire Code 16 CFR part 1633.
- Weight Capacity: 500 lbs.
- Warranty: Core; 15 Year Non-Prorated. Cover; 2 Year.
- Optional raised rails available on all sizes.

81052-42	Protekt® 500	42"x80"x6"
81052-48	Protekt® 500	48"x80"x6"

FEATURES AND BENEFITS:

- Top-layer of high resilient high density foam provides optimal support and comfort for your Bariatric patients.
- Foam bottom layer is made of ultra high density high resilient foam which provides unprecedented patient support and stability.
- Stretch nylon top cover reduces perspiration and provides a low shear friction surface that is anti-microbial and fluid resistant.
- 360 degree zipper for easy removal, cleaning or replacement.
- Anti-Contamination Flap covers the zipper reducing the possibility of fluids damaging the foam core.
- Bottom Cover: Triple laminate vinyl; fluid resistant; anti-microbial/anti-bacterial; fire retardant.
- Fire sleeve meets Federal Fire Code 16 CFR part 1633.
- Weight Capacity: Up to 1000 lbs.
- Warranty: Core; 1 Year Non-Prorated. Cover; 1 Year.
- Optional raised rails available on all sizes.

Protekt® Supreme Support

Self-Adjusting Air/Foam Mattress with Optional Alternating Pressure Pump

FEATURES AND BENEFITS:

- The Protekt® Supreme Support utilizes a series of 10 interconnected air cells and pressure valves to continually equalize pressure in response to patient movement and position changes. The Equalization Technology automatically redistributes weight to relieve pressure by increasing body surface contact.
- The top foam layer of Visco Gel Polymer Technology (VGPT™) is an open cell visco memory foam infused with gel polymers. This VGPT™ provides rapid heat dissipation, excellent pressure redistribution and vastly increases breathability compared to traditional foam.
- The sloped heel section reduces pressure and increases blood circulation by redistributing the load from the heel to the less vulnerable lower leg.
- Stretch nylon top cover is fluid resistant, breathable and fire retardant.
- The optional pump easily converts the Protekt® Supreme Support to a powered air mattress.
- Warranty: Mattress; 5 Year Non-Prorated.
- Optional Protekt® 3000 Pump; 18 Month.

Protekt® Fiber Homecare Mattress with Cool Comfort Cover™

FEATURES AND BENEFITS:

- Less expensive alternative to a traditional innerspring mattress.
- Superior pressure redistribution and comfort compared to a traditional innerspring mattress.
- Mattress is manufactured to be flippable which extends the life cycle of the mattress.
- 100% virgin densified polyester fiber core is designed for use in Home Care.
- Protekt® Cool Comfort™ cover is constructed of polypropylene, a breakthrough healthcare textile.
- The cover is fluid resistant, breathable, 100% recyclable, odor, stain and mold resistant.
- Lighter weight than traditional innerspring mattresses.
- Lower shipping costs than innerspring mattresses.
- Meets Federal Fire Code 16 CFR part 1633.
- Weight Capacity: 35" - 350 lbs. /42" - 600 lbs.
- Warranty: 1 Year Non-Prorated.
- Also available with a standard nylon cover.

Protekt® Defined

Raised Rail Mattress Cover

FEATURES AND BENEFITS:

- Low intervention solution transforms all mattresses into a raised rail mattress eliminating the need to buy an entirely new mattress.
- Universal - Works with practically all manufacturers mattresses.
- Foam bolsters form a sensory reminder of mattress edges, reminding the patient that they are nearing the edge of the bed, mitigating rolling or unattended bed exits.
- The raised edge minimizes gaps between the bedrail and the mattress, limiting the risk of entrapment.
- 15" openings in the mid-section for easy patient exit and entry.
- Complies with latest restraint reduction legislation. Decreases use of siderails recommended for avoiding entrapment.
- Nylon top cover is fluid resistant, vapor permeable and anti-microbial.
- Zippered foam compartments allows safe and easy laundering of cover.
- Warranty: 2 Year Non-Prorated.

(air mattresses)

(foam mattresses)

Protekt® Positioning Devices

ROLL CONTROL BOLSTER

- Alternative to side rails.
- Prevents the patient from falling out of bed.
- Easily attaches to bed with quick-release buckles and can be positioned to accommodate individual patient needs.
- Provides secure positioning for side-lying patients.
- Not considered a restraint.

58500 Protekt® Roll Control Bolster Pair 34"x7"x8"

BED WEDGE

- Designed to be used as a multi-purpose wedge and can be placed in a variety of support positions. Ideal for head, leg or foot elevation.
- The gradual slope helps ease respiratory problems while reducing neck, back and shoulder pain.
- Improves positioning and circulation.
- High density polyurethane foam construction.
- Cover: Breathable polyester/cotton fabric.

Protekt® Gel Overlay

HCPCS
E0185

FEATURES AND BENEFITS:

- Optimal overlay surface for the prevention and treatment of pressure ulcers.
- Convoluted high density polyurethane foam top layer.
- 15 horizontal gel bladders prevents migration and bottoming out.
- Gel bladders contain an aqueous gel composition that provides deep immersion.
- Base foundation is a high density/high resilient foam construction which prevents bottoming out.
- Nylon top cover is fluid resistant, vapor permeable and anti-microbial.
- Bottom vinyl cover has 4 elastic corner straps that secures overlay to the mattress.
- Gel maintains room temperature at all times.
- Size: 34"x76"x3.5".
- Also available in 35", 42", 48", 54" & 60" widths.
- Warranty: 1 Year Non-Prorated.

Protekt® Aire 1500 Adjustable Alternating Pressure Overlay

HCPCS
E0181

FEATURES AND BENEFITS:

- Manual air flow adjustment knob.
- Alternating Cycle Time: 10 minutes.
- Safety end flaps secures the pad to the mattress to prevent slipping.
- Lighted On/Off switch.
- Hanging bed hooks.
- Medical grade fire retardant PVC.
- Thickness: 11.5 gauge.
- Size of pad: 35.5"W x 78.5"L x 3"H.
- Cord Length: 14 ft.
- Weight Capacity: 300 lbs.
- Warranty: 18 Month Non-Prorated.

Protekt® Aire 2000

Low Air Loss/Alternating Pressure Overlay System

FEATURES AND BENEFITS:

PROTEKT® AIRE 2000 PUMP

- Low air loss and alternating pressure therapies in one system.
- Air flow dial to obtain custom patient comfort and pressure levels.
- Preset 10 minute alternating cycle.
- Static function for safe and easy patient transfer.
- Visual low pressure alarm.
- Adjustable hanging brackets.

MATTRESS & COVER

- 18 laser holes keeps the patient cool and dry.
- Removable, fluid resistant, non-shear, anti-microbial nylon cover.
- Transport connector locks in air for easy patient transfers.
- CPR valve provides rapid deflation of mattress.
- Kink resistant tubing.
- Optional raised side rails available.
- Weight Capacity: 350 lbs.
- Warranty: 18 Month Non-Prorated.

Protekt® 1st Defense

Dynamic Hybrid Pressure Prevention Mattress System

FEATURES AND BENEFITS:

- Dynamic pressure redistribution mode and low air loss therapy.
- High density/resilient foam insert creates a comfortable pressure redistribution support surface.
- Foam insert slopes from 2" to 1" offering added pressure redistribution in the vulnerable heel area.
- Top cover insert pocket protects the foam from contamination.
- Air flow dial offers custom patient pressure levels.
- Dynamic pressure pump is preset to alternate at a 10-minute cycle time.
- Static mode provides a firm surface for egress and ingress from the mattress.
- Nylon top cover is waterproof, vapor permeable, low shear, and anti-microbial.
- Optional: Foam raised side rails available.
- Weight Capacity: 350 lbs.
- Warranty: 2 Year Non-Prorated.

- Warranty: 18 Month Non-Prorated.

83600AB

Protekt® Aire 3600AB 36"x80"x8"

FEATURES AND BENEFITS:

PROTEKT® AIRE 4000DX PUMP

- Extended Warranty Digital Pump with Auto Compressor Sleep Technology (ACST) shuts off compressor at desired pressure level extending pump life cycle.
- Low air loss and alternating pressure therapies in one system.
- Adjustable weight settings allows pressure to be customized according to each patient's therapeutic requirements.
- Preset 10 minute alternating cycle.
- Static function for safe and easy patient transfer.
- Audio/visual low pressure alarm indicates air flow may be compromised.

MATTRESS & COVER (Available in 84" length)

- Raised side perimeter air bolsters mitigates accidental patient roll-outs, and reduces the risk of entrapment.
- Center cut-out in air bolsters enables safe ingress and egress from the mattress.
- Unique cell-on-cell design ensures that the mattress will hold air in the lower cells in the event of a power failure.
- 18 laser holes keeps the patient cool and dry.
- Stretch nylon top cover is fluid resistant and vapor permeable.
- Static head section prevents unnecessary head/neck movement.
- Pillow top feature prevents head and neck from unnecessary movement during alternating mode.
- Weight Capacity: 400 lbs.
- Warranty: 2 Year Non-Prorated.

84600DXAB

Protekt® Aire 4600DXAB 36"x80"x8"

Protekt® Aire 6000AB

**Low Air Loss/
Alternating
Pressure Mattress
System with
Deluxe Digital
Pump, Raised
Air Bolsters and
Cell-On-Cell
Support Base**

FEATURES AND BENEFITS:

PROTEKT® AIRE 6000 PUMP

- Dual therapies; low air loss and alternating pressure.
- 4 alternating cycles 10, 15, 20 & 25 minutes allows clinicians to customize therapy.
- Seat-inflate feature helps protect the patient when they are in the fowler position.
- Auto firm mode for quick inflation.
- Static mode provides firm support for egress or ingress from mattress or side edge seating.
- 3 audible and visual alarms; low pressure, power failure and alternating failure.

MATTRESS & COVER

(Available in 84" length)

- Raised side perimeter air bolsters mitigates accidental patient roll-outs, and reduces the risk of entrapment.
- Center cut-out in air bolsters enables safe ingress and egress from the mattress.
- Unique cell-on-cell design ensures that the mattress will hold air in the lower cells in the event of a power failure.
- 18 laser holes keeps the patient cool and dry.
- Stretch nylon top cover is fluid resistant and vapor permeable.
- Pillow top feature prevents head and neck from unnecessary movement during alternating mode.
- Weight Capacity: 450 lbs.
- Warranty: 2 Year Non-Prorated.

80060AB

Protekt® Aire 6000AB 36"x80"x8"

Protekt® Aire 6500

**Low Air Loss/Alternating
Pressure Mattress System
750 LBS. Weight Capacity**

FEATURES AND BENEFITS:

- Dual compressor with 18 LPM (liter per minute).
- Alternating pressure cycles of 10, 15, 20 & 25 allows clinicians to customize pressure redistribution and skin surface interface.
- Cell-on-cell mattress design prevents patient from bottoming out in case of power failure.
- 10" air cells are constructed of Nylon/PU for added comfort and support.
- Low air loss function controls and manages moisture to prevent skin maceration.
- 3 audio/visual alarms; low pressure, power failure, and alternating failure alerts clinicians when preset pressure levels decrease.
- Seat inflate increases air flow by 20% to middle bladders to prevent bottoming out.
- Static mode allows for easy transfer in and out of bed.
- Pillow top feature prevents head and neck from unnecessary movement during alternating mode.
- Lock out feature prevents unauthorized changes to the pump settings.
- Nylon quilted top cover is fluid resistant, breathable, vapor permeable and fire retardant.
- CPR pull tab quickly releases air from mattress.
- Weight Capacity: 750 lbs.
- Warranty: 2 Year Non-Prorated.

Protekt® Aire 7000

**Lateral Rotation/Low Air Loss/
Alternating Pressure and Pulsation
Mattress System**

FEATURES AND BENEFITS:

- Lateral rotation offers three turning modes with adjustable angles and turning cycle times from 10-95 minutes - Left Turn, Right Turn and Full Turn.
- TrueCare™ Alternating technology enhances patient comfort by re-inflating the 1st set of alternating cells before the 2nd set of cells start to deflate and alternate.
- Innovative iLAL™ (Independent Low Air Loss) effectively reduces the moisture and skin heat on the support surface by periodically providing a high volume of air loss relief.
- Selectable 10, 15, 20, 25, 30 minute alternating cycle times with LED display and static mode for easy patient transfer.
- Constant low pressure (CLP) mode puts the mattress in a low pressure static surface for patients who cannot tolerate a dynamic surface but still require a pressure redistribution surface.
- Pulsate mode with adjustable cycle time provides a periodic pressure changing static surface.
- 18 bladder cell-on-cell mattress design prevents patient from bottoming out in case of power failure.
- Auto-firm mode provides quick set up and ease of ingress and egress from bed.
- Audio/visual alarms: power failure, low pressure and service alarm with error code.
- Nylon quilted top cover is fluid resistant, breathable, vapor permeable and fire retardant.
- Two-stage fowler detector automatically stops turning at 20 degrees and increases the pressure output at 45 degrees to prevent "bottoming out."
- Weight Capacity: 660 lbs.
- Warranty: 2 Year Non-Prorated.

Low Air Loss/Alternating Pressure Bariatric Mattress System

FEATURES AND BENEFITS:

- Alternating pressure cycles of 10, 15, 20 & 25 minutes allows clinicians to customize pressure redistribution and skin surface interface.
- Cell-on-cell mattress design prevents patient from bottoming out in case of power failure.
- 10" air cells are constructed of Nylon/PU for added comfort, support and durability.
- Low air loss function controls and manages moisture to prevent skin maceration.
- Audio/visual low pressure alarms alerts clinicians when preset pressure levels decrease.
- Static mode allows for easy transfer in and out of bed.
- Seat inflate increases air flow by 20% to middle bladders to prevent bottoming out.
- Pillow top feature prevents head and neck from unnecessary movement during alternating mode.
- Quilted top cover for added patient comfort.
- Lock out key completely locks the control panel to eliminate tampering of the patient settings, including power switch.
- CPR pull tab quickly releases air from mattress.
- Optional raised side rails available on all sizes.

SPECIFICATIONS

- Air Flow: 18 liters per minute.
- Mattress Dimensions: 42"x80"x10".
- Available in 48", 54" and 60" widths.
- Weight Capacity: 750 lbs.
- Warranty: 2 Year Non-Prorated.

Protekt® Aire 8900

**Low Air Loss/Alternating Pressure/
Pulsation Mattress System with
“On Demand Side Air Bolsters”**

FEATURES AND BENEFITS:

- High airflow dual compressor pump produces 18 lpm.
- Three therapies in one system; low air loss, alternating pressure and pulsation.
- 5 alternating pressure cycles 10, 15, 20, 25 and 30 minutes; Pulsation cycle times adjustable from 10-30 minutes offering customized therapy.
- Auto-Seat feature automatically detects and equalizes pressure to the center cells when the mattress is in the inclined position.
- Auto firm mode for quick inflation.
- Static mode with “auto-recovery” provides firm support for egress or ingress from mattress or side edge seating.
- 3 audible and visual alarms; low pressure, power failure and service mode.
- **“On demand side air bolsters”** mitigates accidental patient roll-outs, reduces the risk of entrapment and has a “quick deflate” twist release valve to allow the use of the mattress with or without the raised air bolsters.
- Unique cell-on-cell design ensures that the mattress will hold air in the lower cells in the event of a power failure.
- Independent low air loss (iLAL) defuses air from underneath the mattress air bladders.
- Nylon top cover is fluid resistant and quilted for added comfort.
- CPR twist valve for rapid deflation.
- Weight Capacity: 660 lbs.
- Warranty: 2 Year Non-Prorated.

80089

Protekt® Aire 8900 36"x80"x8"

Protekt® Aire 9900

**True Low Air Loss Mattress System with
Alternating Pressure and Pulsation**

FEATURES AND BENEFITS:

- 1275 liters per minute of true low air loss.
- Provides effective true low air loss with alternating pressure and pulsation.
- State of the art micro-controller technology monitors blower speed to set pressures.
- User-friendly control panel with dome keys, LED display for simple user interface. Displays patient comfort pressure level by weight.
- Alternating pressure cycles of 5, 10, 15, 20, 25 & 30 minutes allows clinicians to customize pressure redistribution and skin surface interface.
- Cell-on-cell mattress design prevents patient from bottoming out in case of power failure.
- Automatic fowler (seat inflate) recognizes when the patient is in the upright position and increases air flow in the middle bladders by 20% to prevent bottoming out.
- Audio/visual alarms in the event of power outage or low pressures. Internal memory always retains current settings during power outage, will resume desired operation upon power return.
- Nylon top cover is fluid resistant and quilted for added comfort.
- Optional air bolster helps mitigate accidental roll outs.
- Optional raised side rails available on all sizes.
- Weight Capacity: 1,000 lbs.
- Warranty: 2 Year Non-Prorated.

Protekt® Beveled Fall Mat

The Protekt® Beveled Fall mat reduces the impact of a fall from bed. The Protekt® fall mat helps reduce the possibility of impact related injuries and provides full-length coverage of the bed exit area. The low profile design of less than 0.7" makes it the lowest fall mat on the market! The tapered edge allows for easy equipment access, especially wheelchairs, and lessens the possibility of stumbling on the perimeter.

- Beveled edge helps to prevent accidental tripping. Wheelchairs can pass over them quickly and easily.
- Elegant design to match your homes decor.
- Textured top prevents caregiver from slipping.
- Vinyl material offers high tear resistance and strength for durability.
- Non-skid bottom helps keep mat safely in place.
- Available in brown, grey or maroon.
- Warranty: 5 Year Non-Prorated.
- Dimensions: 70"x24"x0.7".

51001BR	Protekt® Beveled Fall Mat - Brown

Protekt® Safety Foam Fall Mat

FEATURES AND BENEFITS:

Manufactured from specially cured high-density impact resistant foam. The Protekt® Safety Foam Fall Mat helps reduce injuries by providing full length coverage of the bedside area.

- Bi-fold design makes storage easy, convenient and fast.
- Durable easy to clean nylon top cover is antimicrobial/antibacterial and specially designed for long term care facilities.
- The durable vinyl bottom cover mitigates the mat from slipping.
- The Protekt® Safety Foam Fall Mat is the first step in ensuring your patients safety.
- Fire retardant foam meets CA #117.
- 4 different sizes to choose from.
- Custom sizes available upon request.
- Warranty: 1 Year Non-Prorated.

Protekt® O2 Cushion

FEATURES AND BENEFITS:

The Protekt® O2 wheelchair cushion is an excellent choice for the prevention and treatment of pressure sores. The soft interconnected air cells allow for deep immersion providing constant low pressure across the entire seating surface.

- Adjustable 4" or 2" high air cells offers deep immersion to provide excellent pressure redistribution for tissue protection and treatment.
- Dual valve compartments address seating challenges such as pelvic obliquities, sacral seating and enhances posture control.
- Both compartments can be adjusted independently to increase positioning and stability for side to side control.
- Nylon breathable cover with non-skid bottom and safety straps.
- Easy to use hand held inflation pump.
- Flame resistant, latex free neoprene.
- Patch kit included.
- Weight Capacity: 500 lbs.
- Warranty: 5 Year Non-Prorated.

Protekt® Aire Geri-Chair Alternating Pressure Overlay System

FEATURES AND BENEFITS:

- Designed to deliver proven alternating pressure relief therapy to patients while seated in a geri-chair or recliner.
- User friendly quiet pump provides 8 liters of air per minute.
- Stretch nylon top cover is fluid resistant and vapor permeable.
- Fits standard and bariatric geriatric recliners and is easily transportable from room to room.
- Three adjustable placement straps with buckles to secure to any style geri-chair.
- Protekt® Aire 3000 pump provides alternating pressure therapy.
- Air flow dial offers custom patient comfort and pressure levels.
- Static function for safe and easy patient transfer.
- Preset 10 minute alternating cycle.
- Low pressure alarm indicates air flow may be compromised.
- Weight Capacity: 350 lbs.
- Available in 20" and 24" widths.
- Warranty: 18 Month Non-Prorated.

Protekt® Footrest Extender/Legrest Pad

The Protekt® Footrest Extender provides a base of support and elevates the legs, improving seat alignment, posture, and comfort while alleviating foot drop symptoms.

- Protects lower leg from contact with wheelchair.
- Prevents feet from slipping behind footrests.
- Mitigates foot drop with removable extender that raises the footrest by 1, 2 or 3 inches.
- Secures easily with quick-release straps.
- Available in sizes covering wheelchair widths of 16" – 24".
- Warranty: 1 Year Non-Prorated.

47001	Footrest Extender/Leg Rest Pad w/1" Pad	16"-20"
47002	Footrest Extender/Leg Rest Pad w/2" Pad	16"-20"

Protekt® Heel Loft Pillow With VGPT™

60150	Heel Loft Pillow with VGPT™	24"x16"x7"x5.5"
60150G	Heel Loft Pillow with VGPT™ with Gel Bladder	24"x16"x7"x5.5"

The Protekt® Heel Loft Pillow completely off-loads pressure on the heels by comfortably elevating the feet and suspending the heels. In addition to inhibiting the development of pressure ulcers, it also alleviates lower back pain by relaxing the spine. The Visco Gel Polymer Technology (VGPT™) offers a gel-infused memory foam top layer that provides unprecedented pressure redistribution, rapid heat dissipation, and vast increases in breathability compared to traditional foam redistribution. The high-performance, breathable stretch nylon cover, is fluid resistant and antimicrobial.

- Completely removes pressure from the heels.
- Prevents the formation of pressure ulcers.
- Helps heal existing pressure ulcers.
- Optional gel bladder adds superior comfort and cooling.
- Non-skid bottom prevents sliding.
- Warranty: 1 Year Non-Prorated.

Protekt® Positioning Wedge

50030	30° Positioning Wedge	7"x12"x18"
50031	30° Positioning Wedge	7"x12"x24"
50032	30° Positioning Wedge	7"x12"x34"

The Protekt® Positioning Wedge is used to comfortably reposition immobile patients. By reducing pressure on vulnerable areas, it assists with the prevention and management of pressure ulcers. The wedge is designed with a 30-degree lateral incline to help with proper positioning and to relieve pressure on the hip bone and coccyx. The high-performance breathable stretch nylon cover, designed for pressure relief and comfort, is fluid resistant, anti-microbial and soft to the touch.

- Recommended incline angle of 30° helps relieve pressure on hip bone and coccyx.
- High-density polyurethane foam construction.
- Breathable stretch nylon cover reduces shearing.
- Non-skid bottom prevents sliding.
- Warranty: 1 Year Non-Prorated.

Protekt® Heel Protectors

Protekt® Heel-Gel Elevation Boot

- Suspends the heel over an air cavity creating zero pressure on the heel.
- Inhibits development of pressure sores/aids healing existing sores.
- Gel insert relieves pressure on and below the ankle, and can provide hot or cold therapy.
- Soft brushed fabric cover with Velcro hook and loop straps.
- Anti-foot drop construction.
- Anti-microbial/bacterial cover.
- Warranty: 1 Year Non-Prorated.

60120S	Heel-Gel Elevation Boot - small
60120M	Heel-Gel Elevation Boot - medium
60120L	Heel-Gel Elevation Boot - large

Protekt® Foot Pillow

- Extra-thick polyfoam reduces pressure and cushions sensitive heels.
- Covered with soft terry cloth reduces skin shear.
- Secure Velcro closure makes securing and removal quick and easy.
- Machine washable.
- Anti-microbial/bacterial cover.
- Warranty: 1 Year Non-Prorated.

60110	Foot Pillow (pair)
-------	--------------------

Protekt® Gap Fillers Entrapment Protection

Protekt® Gap Fillers are custom-made to fit any gap and protect the resident from bed entrapment. They are ideal for mitigating the danger of entrapment in Zones 3 and 7. By closing the gaps around the perimeter of the mattress, the risk of entrapment of the head, neck, chest or limbs that may occur at the headboard, footboard and rails is eliminated.

Protekt® Rail Guards

- Fills the gap between the mattress and the rail.
- Prevents entrapment along the side of the mattress.
- Works with most rails when raised or lowered.
- Wedged style acts as a patient positioning device.
- Easy to clean vinyl cover.
- Meets fire rating CA #117.
- Warranty: 1 Year Non-Prorated.
- Custom sizes available.

58300	Protekt® Rail Guard	Half- 36"x6"x3"
58301	Protekt® Rail Guard	Full - 70"x6"x3"
58400	Protekt® Wedge Rail Guard	Half - 36"x12" (each)
58401	Protekt® Wedge Rail Guard	Full - 70"x12" (each)

Protekt® Mattress Extender

- Prevents entrapment along the head/footboard.
- Fills the gap between the mattress and the footboard.
- Safely accommodates taller patients.
- Easy to clean vinyl cover.
- Meets fire rating CA #117.
- Warranty: 1 Year Non-Prorated.
- Custom sizes available.

PROTEKT® ONYX

32475 | HYDRAULIC PATIENT LIFT

HCPGS
E0630

The innovative Protekt® Onyx home care lift utilizes high performance hydraulics for gradual movement and provides a safe and comfortable patient transfer. This easy to operate hydraulic lift is built to last, and yet extremely affordable.

- Spreader bar allows for the use of 4- or 6-point slings, safer patient handling and a wider range of transfers.
- High performance hydraulics raise and lower patients gradually and safely from any stationary position.
- User friendly hand operated base opening adjusts and locks easily.
- Dual rear locking casters.
- Includes chain connections.
- 450 lb. weight capacity.

Hydraulic Patient Lift with Electric Upgrade

Model: 33400HE

The Protekt® Transformer is Proactive's answer to at home safe patient handling. It is easy to maneuver, transport, and maintain while providing safe and secure patient transfers. The hydraulic pump style provides a low-cost option for caregivers to easily care for patients. An optional upgrade kit "transforms" the hydraulic system to a full powered electric lift. Given the demand for patient lifts in a variety of situations, the Protekt® Transformer is a low cost yet highly effective solution for patients in a homecare setting.

- Durable powder coated steel tube construction.
- Small & quick disassembly for transport.
- Six-point spreader bar.
- Manual open/close base legs.
- 4" rear casters with locking brakes.
- 3" front casters.
- Tool free assembly.
- 400 lb. weight capacity.
- Optional upgrade to battery power.
- Optional digital scale.

Charging Cradle (No plug)	LP-TBC2-CRDL
Hand Pendant	LP-TH10-PEN

- **Modular design allows easy parts replacement.**
- **Advanced electronics with auxiliary up/down lift controls.**

PROTEKT® STS COMPACT 500

34500-COM | SIT-TO-STAND PATIENT LIFT

HCPCS
E0637

The Protekt® STS Compact 500 Patient Lift is a user friendly, durable, and affordable sit-to-stand lift. It is extremely compact and easy to maneuver and transport anyone 500 lbs. or under. It has a low base height of 4.9" which is ideal for sliding under most furniture or chairs. The foot pedal easily opens the base to allow wheelchair or toilet entrance.

The 34500-COM is intended for patients who are lacking leg strength in their lower extremities but are still able to bear weight. It is designed to assist with standing from a seated position while using a toilet/commode, changing clothes and/or to relieve pressure. The 34500-COM is intended to have one caregiver operate the lift to perform the transfer.

The 34500-COM allows the patient to be lifted and transferred safely with minimal physical effort provided by the operator. The 34500-COM uses an electric actuator to lift patients from a sitting to a standing position from either a bed or chair for transferring. The lift has a standing platform to be used while transferring the patient from one surface to another, also included is a cushioned knee pad for additional comfort and support.

The performance class actuator includes an emergency quick release in case of a power outage.

PROTEKT® 600 STAND

34600 | SIT-TO-STAND PATIENT LIFT

HCPSCS
E0637

The Protekt® 600 lb. Sit-to-Stand has extra wide adjustable kneepads that will help meet a wider range of patient needs. To support the extra weight, the 600 Stand has a heavy duty boom to help lift and support the patient for smoother and safer transfers. The emergency quick release makes the 600 Stand the safest lift in any situation.

- **4 sling hooks allows for multiple sling options, safer patient handling and a wider range of transfers.**
- **Fast speed lift motor reduces time for the transfer.**
- **Battery lasts twice as long as competing brands for less downtime (24 volts).**
- **Ergonomically designed foot pedal offers hands free opening of base.**

PROTEKT® DASH

32500 | STANDING TRANSFER

The Protekt® Dash is your best choice for fall prevention, reducing caregiver lifting injuries and promoting patient mobility. The Protekt® Dash offers ample weight capacity at 500 lbs. and includes an adjustable base which provides clearance around common obstacles such as recliners allowing access to patients.

- Dual shin pads for extra support.
- Molded seat can be rotated upwards to allow for patient loading.
- Cross bar for extra support.
- Non-Slip footplate for safety.
- Ergonomically designed foot pedal offers hands free opening of base.
- Dual rear locking casters.
- Simple solution to compliment your electric stand assist lifters.
- 500 lb. weight capacity.

SPECIFICATION FOR ITEM # 32500	
Weight Capacity	500 lbs.
Unit Weight	78 lbs.
Minimum Base Width	26.8"
Maximum Base Width	37.0"
Open Base Width	37.0"
Closed Base Width	26.7"
Base Opens	Yes
Overall Height	43.3"
Base Height	4.5"
Minimum Seat Height	26.7"
Seat Width	20.0"
Overall Length	35.4"
Knee Pads/Shin Guards	Yes
Optional Support Strap	Yes
Optional Seat Locks	Yes

- First choice for any fall prevention program.
- Support strap available - attachment hooks for optional side support and back strap.

Protekt® Alarms

Advanced Magnet Alarm

Advanced Chair/Bed Alarm

- **Visual signaling** - Top mounted flashing lights helps to verify that the monitor is armed (slow green flash) and locate the monitor when alarming (fast red flash) - perfect for nighttime use.
- **Hidden dual button reset** - Helps deter resident tampering while offering easy access for staff.
- **Meets JCAHO guidelines** - Alarm is always in the on position, making it impossible for staff to forget to turn the alarm on, and preventing the alarm from being accidentally turned off.
- **Mounting bracket** - Easily attaches to practically all wheelchairs and beds.
- **Mounting strap** - Easily detachable strap offers the facility more mounting options.
- **Volume options** - Low and high volume settings.
- **Screw option** - Optional screw locks the control panel to prevent tampering.
- Rubber case protects alarm from accidental drops.
- Clip attaches securely to residents clothing.
- Reliable multi-directional magnetic pull-switch.
- Adjustable-length cord clips to residents clothing.
- 2 second delay options helps reduce false alarms (for restless residents).
- Low battery alert.
- Operates on one 9V battery (included).
- 1 Year warranty.

10240B

Advanced Magnet Alarm

10250B

Advanced Chair/Bed Alarm (no nurse call)

Advanced Chair/Bed Alarm (w/nurse call)

CHAIR ALARM, BED ALARM, AND NURSE CALL!

- **Auto-Reset** - Automatically resets when pressure is reapplied on the sensor pad.
- **Visual signaling** - Top mounted flashing lights helps to verify that the monitor is armed (slow green flash) and locate the monitor when alarming (fast red flash) - perfect for nighttime use.
- **Hidden dual button reset** - Helps deter resident tampering while offering easy access for staff.
- **Floor pad compatible** - Simply switch the control on the alarm and turn it into a floor sensor monitor.
- **Nurse call port** - The ¼" plug works with most existing nurse call systems making this the ideal choice for a bed alarm monitor.
- **Meets JCAHO guidelines** - Alarm is always in the on position, making it impossible for staff to forget to turn the alarm on, and preventing the alarm from being accidentally turned off.
- **Compatibility** - Can be used with most companies bed and chair sensor pads.
- **Mounting bracket** - Easily attaches to practically all wheelchairs and beds.
- **Mounting strap** - Easily detachable strap offers the facility more mounting options.
- **Strain relief** - Avoid having to replace sensor pads because of ripped cords.
- **Volume options** - Low and high volume settings.
- **Tone options** - Different tones allow you to choose the sound that works for you.
- **Screw option** - Optional screw locks the control panel to prevent tampering.
- Rubber case protects alarm from accidental drops.
- 2 second delay option helps reduce false alarms.
- Low battery alert.
- Operates on one 9V battery (included).
- 1 Year warranty.

Advanced Ultimate Alarm (all in one w/nurse call)

MAGNET, CHAIR ALARM, BED ALARM, AND NURSE CALL! EVERYTHING YOU NEED IN ONE ALARM.

- **Auto-Reset** - Automatically resets when pressure is reapplied on the sensor pad.
- **Visual Signaling** - Top mounted flashing lights helps to verify that the monitor is armed (slow green flash) and locate the monitor when alarming (fast red flash) - perfect for nighttime use.
- **Hidden dual button reset** - Helps deter resident tampering while offering easy access for staff.
- **Floor pad compatible** - Simply switch the control on the alarm and turn it into a floor sensor monitor.
- **Nurse call port** - The ¼" plug works with most existing nurse call systems making this the ideal choice for a bed alarm monitor.
- **Meets JCAHO guidelines** - Alarm is always in the on position, making it impossible for staff to forget to turn the alarm on, and preventing the alarm from being accidentally turned off.
- **Magnet option auto sensor** - When a sensor pad is plugged in the magnet is automatically deactivated, eliminating the requirement of "dummy" magnets for deactivation.
- **Compatibility** - Can be used with most companies bed and chair sensor pads.
- **Mounting bracket** - Easily attaches to practically all wheelchairs and beds.
- **Mounting strap** - Easily detachable strap offers the facility more mounting options.
- **Strain relief** - Avoid having to replace sensor pads because of ripped cords.
- **Volume options** - Low and high volume settings.
- **Tone options** - Different tones allow you to choose the sound that works for you.

- 1 Year warranty.

10210 Basic Chair/Bed Alarm

Protekt® Seatbelt Sensors (Non-Restraining*)

- Designed to alert staff before the patient gets up and reminds the patient to be seated. The seatbelt is an easy-to-release device that holds the patient safely in the chair. The alarm sounds as soon as the patient disengages the belt alerting the staff or caregiver.
- Durable heavy duty nylon lap belt sounds an alarm when velcro attachment is separated.
- Alerts staff and directs resident to stay seated for assistance.
- Belt is adjustable from 26" to 46".
- Velcro belt features a bright red pull-strap for easy locating and releasing.
- Metal grommets on ends of belt provide a customized fit and ensures a secure installation.
- Use on any chair: Geri-chairs, wheelchairs, side chairs.
- Works universally with most major manufacturer's alarms.
- 1 Year warranty.

NOTE: These devices are not restraints! They are designed to be easily unfastened by most patients.

*if a patient is unable to remove a device without assistance, it is considered a restraint under OBRA guidelines.

10420 Splitter

10430 B Nurse Call Cord - 8"

10440 Nurse Call Connector Cable

Protekt® Sensor Pads

Weight-sensitive pressure pads are for bed and chair monitor use. When connected, the pressure pad triggers the monitor when weight is removed from the pressure pad alerting the caregiver to respond. The alarm automatically resets when the patient returns to the safe position, reducing false alarms.

- Pads work with all major manufacturer's alarm monitors.
- All pads are constructed with durable vinyl cover, moisture resistant and easy to clean.
- Sensor pads are designed without holes to increase their water resistance and lifespan.
- Classic chair sensor pads can be used on a variety of chairs and wheelchairs.
- Slim design provides patients with a comfortable seating environment.
- Excellent sensor function warns caregivers of patients attempting to leave chair or bed earlier than most other pads.
- Large pad size helps reduce false alarms.

Classic Chair Sensor Pad	45 day	10110	7"x15"
	6 month	10111	7"x15"
	1 year	10112	7"x15"

	6 month	10131	20"x30"
	1 year	10132	20"x30"

Floor Sensor Pad

- Alarm sounds when residents exit the bed and step on the pressure-sensitive pad.
- Large, heavy-duty, nonslip grips ensures that the sensor pad does not move.
- Thin edges let wheelchairs roll onto the pad, and prevent residents from accidentally tripping on the pad.
- Extra large pads measure 20" x 30" ensuring adequate coverage.

Chariot IV Wheelchair

FEATURES

- Built of a lightweight aluminum & carbon steel frame that features a durable black chip proof finish and folds for easy storage
- 3-Position quick-release axles allow for tool-free removal of rear wheels for fast hemi-height adjustment
- Includes a 2-inch removable tool-free seat extension that easily adjusts seat depth from 16" to 18"
- Flip-back padded arm rests are height adjustable from 10" to 14"
- Adjustable height wrap-around back upholstery for maximum comfort
- Comfortable and stylish nylon upholstery includes carry pouch
- Polyurethane tires and composite casters for superior performance
- Includes tool-free adjustable front riggings
- Footrests include heel loops and composite footplates

The **Chariot IV Wheelchair** is ultra-lightweight, yet extremely strong & durable thanks to its aluminum and carbon steel frame. It is specially designed to allow for custom seat backs and accessories and includes an adjustable-depth seat. The rear wheels can be quickly and easily moved between three separate axles to adjust the seat to the ideal height for the user or to angle the seat back. Other comfort adjustments include armrest height, seat back height and the height and angle of the front caster wheels - all allowing you to tailor the Chariot IV to your specific needs.

Removable flip-back armrests are height adjustable

2" Seat extension

Swing-away footrests with heel loops

Chariot IV XTC-RC Reclining Wheelchair

FEATURES

- Built-in seat rail extension and extendable upholstery easily adjusts seat depth
- Attendant pull to lock wheel locks are located in a convenient and easily accessible location
- Spreader bar acts as a back stabilizer and a convenient push handle for the attendant
- Offset rear wheel position adds additional stability and equally distributes the patient's weight while in the various reclining positions
- Hydraulic reclining mechanism allows for infinite adjustments up to 180 degrees
- Durable, flame retardant nylon upholstery resists mildew and bacteria
- Carbon steel frame with double-coated chrome for an attractive, chip-proof, maintainable finish
- Composite 24" mag-style wheels are lightweight and maintenance free, featuring 8" front casters
- Nylon padded armrests provide added patient comfort, and feature the flip-back style for easy transfers
- Precision sealed wheel bearings in front and rear ensure long-lasting performance and reliability

The **Chariot IV XTC-RC Reclining Wheelchair** has a padded headrest that extends past the backrest and is detachable. The seat back extends to cover the full back and comes in optional widths, from 16 to 22 inches. This reclining wheelchair also features a spreader bar that acts as a back stabilizer and a push handle for an attendant.

The Chariot IV XTC-RC has offset rear wheels to add additional stability to evenly distribute the patient's weight. The rear wheels are supported by composite mag-style wheels to shave off added weight, while in front are two 8 inch wheels. The rear wheels include locks conveniently located next to the chair. This chair is equipped with a hydraulic reclining mechanism to allow for infinite adjustments up to 180 degrees. The frame is constructed of carbon steel and has double-coated chrome and a chip proof finish.

Chariot IV XTC Pediatric Wheelchair 12" / 14"

FEATURES

- Chariot IV XTC Pediatric weighs 32 lbs. (excluding front rigging)
- Easier to propel and transport
- Frame style eliminates seat guides and allows for custom backs and accessories
- Adjustable height back adjusts from 16" to 18"
- Carbon steel black powder-coated frame double coated for an attractive, chip-proof, maintainable finish
- Durable, flame retardant nylon upholstery resists mildew and bacteria
- Composite 20" mag-style wheels with aluminum hand rims are lightweight and maintenance free
- Urethane rear tires and casters offer superior performance, smoother ride, and are lightweight
- 6" front casters have three height adjustments
- Nylon, padded armrests provide added patient comfort
- Flip-back arms allow for easy transfer

The **Chariot IV XTC Pediatric Wheelchair** is a versatile wheelchair right out of the box and is easier to propel and transport than an average weight wheelchair. The Chariot IV XTC Pediatric comes standard with padded arms, multiple seat to floor height positions, anti-tippers with flip-up wheels which never have to be removed, and push-to-lock wheel locks. The back is height adjustable to provide added patient comfort. The carbon steel frame is high strength while remaining lightweight. The wheelchair upholstery is made of durable nylon for long lasting comfort and cleanliness.

- Push-to-lock wheel locks
- Spreader bar functions as a back stabilizer and a push handle for caregiver

The **Chariot IV XTC-RC Pediatric Reclining Wheelchair** has a headrest that extends past the backrest and is detachable. This reclining wheelchair also features a spreader bar that acts as a back stabilizer and a push handle for an attendant.

The Chariot IV XTC-RC Pediatric Wheelchair has offset rear wheels to add additional stability to evenly distribute the patient's weight. The rear wheels are supported by composite mag-style wheels to shave off added weight, while in front are two 6 inch wheels. The rear wheels include locks conveniently located next to the chair.

This chair is equipped with a hydraulic reclining mechanism to allow for adjustments up to 180 degrees. The seat is upholstered with flame-retardant nylon which is resistant to mildew and bacteria. The frame is constructed of carbon steel and has double-coated chrome and a chip-proof finish. The arm rests are padded with durable stitched nylon to provide an additional level of comfort and will flip back to aid in transferring in and out of the chair. It also comes with composite foot plates that are durable and lightweight.

Protek Akra-SE™ Semi-Electric Bed

The **Akra-SE™** Homecare bed has a heavy-duty bed frame constructed from reinforced steel for maximum stability and durability. The head and foot position feature motorized electric adjustment for customizable patient comfort and support. In the event of a power outage, a 9V battery backup can be used to allow movement to the lowest position. The snap on or off low-voltage DC motor box ensure quick, efficient set-ups and easy routine maintenance.

Half Rails

Full Rails

Pendant

FEATURES

- The entire bed, including the rails comes complete in only (2) boxes
- Quick set-up & easy maintenance with motor & electronics that can be removed for service or cleaning
- Easy-to-use control adjusts upper body, knees, and height of bed
- Head and foot sections can be raised independently or simultaneously
- Large button, simple to use hand pendant
- Manual crank at the foot adjusts the frame height
- Scratch-resistant bed ends keep the bed looking new
- 9V battery back-up lets user go to the lowest bed position during power failures (battery not included)
- Headspring and foot assembly are recessed to help reduce pinching and injuries
- Beds include 2 locking and 2 non-locking casters
- Quiet, efficient ETL-approved DC low voltage single motor box
- Optional full-electric conversion kit

BP-FR	Full Length Side Rails (pr)	E0310

Protek Akra Bariatric™ Bed Series

The **Protek Akra Bariatric™** Bed Series offers the lightest 42" bed on the market. It's extremely easy to maneuver, transport, and assemble. Weighing in at only 200 lbs. takes nothing away from the Akra's independently tested strength and durability. Available in 42", 48", and 54" widths provide patients with extra space and comfort to support their recovery.

FEATURES

- Ultra lightweight frame design offers providers easier and more manageable bed deliveries and assemblies
- 42" bed ships complete with rails in only 2 boxes
- Ultra lightweight frame is easily set up by one individual
- Full electric bariatric homecare bed with dual motor assembly for head and frame adjustability
- Square tube steel frame slat deck provides durable strength, no-snag mattress support and is easy to clean

- Scratch resistant wood grain panel bed ends include hi/lo motors for frame height adjustability
- UL approved motor is self-contained for reduced weight and noise and can be easily installed & removed with patient in bed
- Product Safety & Performance Standards: Meets IEC 60601-2-52; 60601-1; 60601-1-2; 60601-1-11
- Rail accessories meet FDA and ASTM entrapment guidelines and standards

Protek[®] Non-Tilt Overbed Table

The **Protek[®] Non-Tilt Overbed Table** from Proactive Medical represents everything you want in a traditional and sturdy mobile bed table. The height-adjustable table rises and lowers easily, requiring the slightest of upward pressure, making it user-friendly for all ages and needs. The swivel casters make this rolling table extremely lightweight and comfortable to move from one position or room to the next. The laminated surface features a raised rubber edge, making it difficult for items to slide off your table, and once your desired height is reached, the tabletop locks firmly and safely into place.

Overbed table

Tabletop

Sturdy H-base

FEATURES

- Easy to use and suitable for either home or institutional use
- Versatile enough for eating, reading, and many other personal activities
- H-style base with 2" swivel casters provide stability and allows the portable table to be easily moved
- Raises with the slightest upward pressure and locks securely when height adjustment handle is released
- Can be raised or lowered in infinite positions
- *Specifications:*
 - Product Dimensions: 15 inches in depth x 30 inches in width x 27-40 inches in height
 - Base Dimensions: 15.5 inches in depth x 26.5 inches in width
 - Weight Capacity: 40 lbs.
- Warranty: 1 Year Limited Lifetime
- HCPCS Code: E0274
